### Question: Which diploma is most suitable for the given needs?

<table>
<thead>
<tr>
<th>Diploma Level</th>
<th>Degree Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bachelor</td>
<td>Information Technology</td>
</tr>
<tr>
<td>Master</td>
<td>Computer Science</td>
</tr>
<tr>
<td>Doctorate</td>
<td>Software Engineering</td>
</tr>
</tbody>
</table>

### Question: What are the specific requirements for each diploma level?

- **Bachelor**: Complete a minimum of 120 credits with a focus on core subjects such as mathematics, computer science, and electives.
- **Master**: Requires a minimum of 180 credits with advanced coursework and a research project.
- **Doctorate**: Requires a minimum of 240 credits with a dissertation and completion of a series of seminars.

### Question: What are the eligibility criteria for admission to the Bachelor program in Software Engineering?

- Minimum GPA of 3.5
- Completion of high school with a focus on mathematics and science
- Recommendation from a high school teacher

### Question: What is the duration of the Doctorate program in Computer Science?

- 4-5 years full-time study
- Part-time option available

### Question: Is there a scholarship program available for international students?

Yes, a limited number of scholarships are available for international students with exceptional academic records.

### Question: What is the job outlook for graduates with a Master's degree in Information Technology?

- High demand in IT industries
- Average starting salary: $70,000
- Opportunities in software development, data analysis, and project management

### Question: Are there any specific language requirements for admission?

- Proficiency in English (TOEFL or IELTS)

### Question: What are the key skills developed in the Bachelor program in Data Science?

- Data analysis
- Machine learning
- Statistical methods

### Question: What are the potential career paths for graduates with a Doctorate degree in Computer Science?

- Research positions in academia or industry
- Leadership roles in technology companies
- Professorships in universities

### Question: What is the importance of taking a course in Artificial Intelligence?

- Essential for understanding modern computing
- Critical for developing autonomous systems
- Integral to the field of machine learning

### Question: What are the prerequisites for the Bachelor program in Software Engineering?

- Completion of high school
- Basic knowledge in mathematics
- Interest in technology and problem-solving
