

MASTER THESIS SUPERVISOR REPORT

Name of the student: Bc. Evelyn Toseafa
The title of the master thesis: Information Systems In Multinational Corporations
Name of the supervisor: Ing. Pavel Jirava, Ph.D.

The evaluation of the master thesis: evaluation: 1 = the best, 4 = the worst

	1	1-	2	2-	3	4
Difficulty			X			
Choice of appropriate methods and used methodology.			X			
Fulfilment of objective				X		
Original contribution to professional practice		X				
Logical process being used			X			
Theoretical background of an author		X				
Selected solution process.						
Work with data and information			X			
Formulation of conclusions			X			
Work with scientific literature (quotations, norms)			X			
Clarity and professionalism of expression in the work			X			
The level of editing images and tables.				X		

Other comments:

The aim of the Master Thesis was is to describe the importance of information systems in companies that use ERP and to describe these systems and analyse specific requirements and IS architecture scenarios. Part of this work should be a proposal for the implementation of such a system. Evelyn Toseafa started her work under the supervision of Pavel Jirava, Ph.D. at the University of Pardubice.

Ms. Toseafa elaborated seriously wide and actual topic. Whole work was built on good theoretical background of the author and the text is clear and on commensurate level.

The work is divided into three main chapters, introduction and conclusion and it has 54 numbered pages. Formally, it is necessary to criticize certain shortcomings, such as abstract (p.5), chapter titles (p. 13-14), mistakes (p. 42, fourth row from the bottom).

University of Pardubice, Faculty of economics and administration
Institute of system engineering and informatics

Contents of the work correspond to the aim in the dissertation assignment. Unfortunately, the student failed to obtain data about Dachser company in full range (It had been originally agreed, the company did not provide data). Therefore, text is more descriptive and not so deep in Chapter 3.

Scope of the literature used in the work is sufficient. As a whole, this work is in accordance with the requirements for the Master Thesis. Ms. Toseafa worked at the Thesis for a long time and steadily. She respected and incorporated into the text most of the supervisor comments.

Question: Explain your recommendation (page 46) "Company should create the vision of the implementation..."

I suggest the grade: very good

Pardubice, 5.9.2016

Ing. Pavel Jirava, Ph.D.
