## Other Comments on the Thesis

This work is focused on the integration management. Mr. Mends elaborated really wide topic, first and second chapter are focused on the concept of ERP and literature review. Third chapter describes ERP implementation in the company. The text is clear and on commensurate level.

I think that the third part of the thesis could have been more concrete and contain more outcomes from MS Project.

Scope of the literature used in the work is sufficient. As a whole, this work is in accordance with the requirements for the Bachelor Thesis.

## Comments on the Outputs from the Theses System
