Doktorand/PhD student: Peter Tuck - H21025

Doctoral dissertation: MORAL PARTICULARISM AND THE NON-FLATNESS REQUIREMENT

Otázky/Questions:

- 1) What is the metaphysical level of what particularists & generalists disagree about? (JJ)
- 2) JS: The nature of default reasons needn't be just sentimental
- 3) JS: Why should we know everything about the relevant moral considerations?
- 4) JS: How can we know that some principles of learning can't be implicit/in-built?
- 5) JS: How can we know that moral considerations can be reduced to reasons?
- 6) TH: A distinction between quietism (as endorsed by PT) & skepticism?
- 7) TH: Is the weighing perception addressing epistemological or metaphysical issues?
- 8) TH: What is the nature of the grounding (supervenience?) of ~~non-natural~~ non-natural moral facts in natural ones?
- 9) JS: The nature of universal moral principles - if they don't hold, are they false, or not at all?
- 10) JS: Can virtues be disentangled from their concepts?
- 11) LC: Personalism vs. particularism
- 12) OB: What is the object of moral perception? - reasons/facts/concerns?
- 13) Audience: difference betw. particularism & norm expressivism of constructivism
