Úvod

Vzorník zošľachtených papierov tvorí samostatnú časť diplomovej práce – *Zošľachtené papiere, ich vývoj a použitie v knihe na príkladoch z fondu benediktínskej kláštornej knižnice v Broumove*, ktorú dopĺňa. Zameraním diplomovej práce je popis charakteristických znakov rôznych druhov zošľachtených papierov a techník ich výroby.

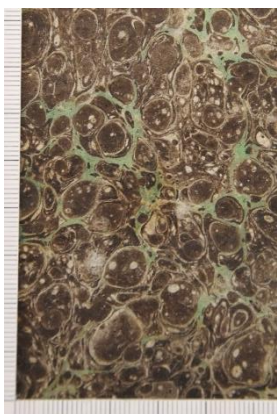

Počas celej práce bol mojím zdrojom informácií a príkladov fond benediktínskej kláštornej knižnice v Broumove. Takmer všetky ukážky zošľachtených papierov uvedených, v prvej časti práce, pochádzajú práve z tejto knižnice. V nej sa nachádza približne 4660 kníh, na ktorých je použitý zošľachtený papier rôznych vzorov a výzdoby.

Vzorník je rozdelený do šiestich kapitol a niekoľkých podkapitol. V každej kapitole sú prezentované vzory jedného druhu techniky, zošľachtujúcej papiere. Zúženým výberom ukážok sú zastúpené nielen časté, ale aj ojedinelé príklady vzorov pochádzajúcich z fondu benediktínskej kláštornej knižnice v Broumove. Zdokumentovaný bol vždy detail vzoru nesúci najmenej poškodení s čo najviac vypovedajúcou hodnotou. Zachytený „výrez“ vzoru má v každom prípade priloženú mierku, ktorej najmenší diel je 1 mm.

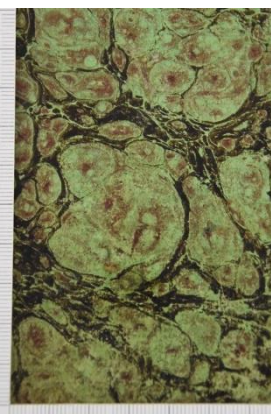

Uvedené vzorky boli zdokumentované pomocou digitálneho fotoaparátu Nikon D5500 s objektívom Nikon AF-S DX NIKKOR 18–105mm f/3,5–5,6G ED VR. Prevažná väčšina fotografií bola vyhotovená pri zaistených stálych svetelných podmienkach za pomoci dvoch štúdiových zábleskových svetiel 4studio TB-300. V niektorých prípadoch bolo zámerne použité len jedno zábleskové svetlo, aby sa zvýraznil reliéf daného povrchu.
